CMULTIFP35U2 C05-410

3.5" Multi Front Panel USB 2.0

With this desktop front panel you have an all-in-one card reader, combined with an extra USB port, directly available from the front of your computer. Most popular memory cards used in mobile phones, digital cameras and MP3 players are supported by the all-in-one card reader, more than 50 different types of memory cards*. The leds on the front indicate the status of the power or the transfer of data. Thanks to the extra USB port on the front, you can connect your camera, mobile phone, storage device or webcam easily without needing to find an available USB port on the back of your computer.
* Some memory cards need an additional card adapter
